**Plan for the Future – the case for change** We're planning for the future and we're living in a climate emergency. If the global healthcare system was a country, it would be the fifth largest emitter in the world. We need to work in a more sustainable way – there is no planet B.

**Moray maternity care – draft interim networked model** Today we shared a draft plan, to provide an interim networked model of maternity care at Dr Gray's Hospital, with Scottish Government, local elected representatives, and other key stakeholders. This plan will now be formally reviewed by Scottish Government; while we await the outcome of that review, [the relevant documents can be read here](#).

**Multi-storey car park works** As shared earlier today, works planned for this weekend have been postponed until 9/10 July. The multi-storey car park at Foresterhill will be available as usual.
